# PERMALYNX™ FITTINGS

**VALVES, FITTINGS  
AND PIPE REPAIR**

Introducing **Permalynx**, a newly-engineered mechanical joining system. It's the fastest copper joining system on earth. Just push and twist to connect copper tube by hand. No flame, no tools required.

## Speed to Meet Tight Schedules

**Permalynx** speed cuts the calendar days needed to finish a job. It gets crews off the job fast and offers a leg up on schedule-crunched projects. At more than 60% faster than sweat, Permalynx will help get clients into their building in record time - and avoid costly delays.

**FERNCO** SHIELDED TRANSITION  
COUPLING

Band-Seal Couplings are a specially designed coupling for making transitions between different types of pipe.

The advantages of these couplings are:

- An exact sized coupling to join Cast Iron, ABS/PVC, Steel and Copper
- Makes transitions between different types of pipe easy and economical
- Conveniently labeled for easy identification of application and sizing
- Neoprene inner sleeve with a heavy 300 Series SS Shield
- Shield provides additional support to the joint as well as protection
- Code approved by UPC, B.O.C.A., Southern Building Codes and Canadian Standards Association
- Many code agencies require a shielded coupling to be used for transitioning above ground, agencies will not allow a flexible coupling for above ground use
- Over 30 years of proven performance
