Notes

FLAPPERS

FLAPPERS

COAST ONE PIECE TIME RELEASE FLAPPER

Many manufacturers of ceramics require different closure times on flappers for their 1.6 GPF low consumption toilets. This is why it is important when replacing these flappers that you replace it with the identical matching color insert. Changing to a different color may cause the toilet not to function properly. Flapper drop time is regulated by the color coded inserts.

- 1 per card
- 25 cards per case

We've always believed that only through quality can there be economy. For that reason we work hard and smart to provide all our products the protection they need to reach the job site in good condition. How much is a tank lever worth to you if it comes damaged because it wasn't packaged correctly? Our best features are our ears. We listen to you!

BIG HEAD™ TANK-TO-BOWL KITS

TOILET AND
TANK SECTION

TANK-TO-BOWL

THERE IS A DIFFERENCE.™

- **THE BOLTS:** Our bolts are made in the U.S.A. from the purest brass content available. We've designed this bolt over the past 50 years, along with our quality minded professional contractor customer, to ensure the job gets done right. The large one inch O.D. head is deep slotted to receive the screwdriver fully. The "Big Head" allows the strongest torque possible without cracking like other oversized pretenders.
- **THE NUTS:** These heavy pattern solid brass hex nuts will remind you of the good old days (because we've never changed them). We have not succumbed to the pressure to cheapen our product by cutting corners. Our nut is a full 9/16" in diameter (most others are at least 1/8" smaller) and is also much thicker.
- **THE RUBBER WASHERS:** We're especially proud of our three layer cloth inserted rubber washers. We have kept the manufacturing process in Kansas City to ensure your satisfaction. A full 1-1/16" in O.D., this is a full 1/4" larger than most. Also the 3 layers of cloth insert make ours as thick as a standard washer. No rips or cuts using these gems!

BIG HEAD™ 14 PIECE DELUXE SOLID BRASS TANK-TO-BOWL REPAIR KIT

Item #	Description	Price	Stock
61-215	Deluxe 14 Pc. 2 Bolt Kit	17.76	

BIG HEAD™ 21 PIECE DELUXE SOLID BRASS TANK-TO-BOWL REPAIR KIT

Item #	Description	Price	Stock
61-415	Deluxe 21 Pc. 3 Bolt Kit	25.32	

- **THE NICKEL PLATED BRASS WASHER:** No bending or rusting with this one! Extra heavy nickel-plated round brass bolt washer is a full 1/6" thick which nearly doubles the typical washer in thickness. The nickel plate holds stronger and longer than chrome while still providing a chrome like finish.

- **THE PACKAGE:** Our deluxe tank-to-bowl kit comes packaged in our in-house bar-coded display package. Our assembly and packaging people have done a great job of listening to our customer requests over the years to offer a truly convenient presentation of product.

Notes

DELUXE CLOSET BOLT KITS

CLOSET BOLT KITS

DELUXE CLOSET BOLT KITS

THERE IS A DIFFERENCE.™

THE BOLT: Our bolts are made in the U.S.A. from the purest brass or copper content available. We've designed the bolt head thickness and size to ensure the strongest torque resistance possible without being oversized for the application. Our breakoff feature has been moved upward on the bolt recently to compensate for the slight length addition, which allows more room for the pliers to grip.

THE NUT: Our acorn nuts are heavy gauge solid brass. Heavy gauge because the diameter is a full 9/16" wide which is at least 1/8" larger than most. The nickel plating holds stronger and longer than chrome while at the same time giving a chrome like finish.

THE WASHER: Our extra heavy nickel plated round brass bolt washer is a full 1/16" thick which nearly doubles the typical washer in thickness. No bending, breaking or rusting with this one!

THE RETAINER: Our stand-up washer retainer is the least expensive of the closet bolt components but should not be overlooked. Time is saved when this retainer holds the bolt upright for fast and easy installation. The hole slots allow use on 1/4" or 5/16" bolts.

THE PACKAGE: All our deluxe closet bolt kits come packaged in our in-house bar coded display packages. Our assembly and packaging people have done a great job of listening to our customer requests over the years to offer a truly convenient presentation of product.
