TRUEBRO® LAVGUARD^{2®} (102EZ) WHITE

HANDI LAV-GUARD INSULATION KIT

FINALLY, A COSMETICALLY APPEALING, DURABLE, HANDICAP LAVATORY INSULATION SYSTEM.

To satisfy current Federal mandated barrier-free and accessibility requirements, BOCA, ANSI and many state codes require that insulation must be applied over the hot water supply and waste piping under lavatories accessed by people with disabilities. These codes protect wheelchair users from being burned or sustaining injury from impact.

The Problem:

Until now, unsightly black extruded foam insulation with its poor fit and inadequate means of securing has been, for lack of a better product, the usual specification of architects and mechanical engineers. Even the most experienced insulator or plumber becomes frustrated with its time-consuming application and poor appearance.

The Solution:

The Handi Lav-Guard kit is a unique, fully molded, flexible vinyl insulation system which cushions impact and is an excellent insulator against burns. Its neutral white color blends nicely into the scheme of any restroom. The Handi Lav-Guard kit is an attractive, durable insulation system that meets virtually all building codes and aesthetic standards.

Notes

**MAGNUM™
HEAVY PATTERN
MACHINE BRASS ROD
SLIP JOINT NUTS
WITH LEAK-FREE
PREMIUM WASHER**

Our nut is machined from brass rod stock, not cast. There are never any casting irregularities. The six large sides give your wrench a no slip surface with a much heavier, better chrome plating than die cast or cast brass. Buffed to a "clean" shine, this superior slip joint nut is another quality product of Hodesco. All Magnum™ traps also with premium polythermal washers.

Nuts packed 12 sets per heavy corrugated box and slip joint washers are included

SOLD 12 PER BOX ONLY

Item #	Description	Price	Stock
51-627	1-1/4" Chrome Plated Slip Nut	10.92	
51-631	1-1/2" Chrome Plated Slip Nut	13.65	

**PREMIUM LEAK-FREE POLYMERAL RUBBER
BEVELED SLIP JOINT WASHERS**

- Has a better flex fatigue resistance than traditional rubber washers to hold its shape longer
- Offers improved resistance to oil, chemicals and water
- Plastic will not dry out and crack
- Takes the flexibility of rubber and combines it with the newest in plastics technology to create the latest advance in leak free technology
- Vibration resistant
- Resistant versus sulfuric acid & sulfuric chloramine

ProCoat™

COATED STAINLESS STEEL GAS APPLIANCE

INDIVIDUALLY POLYBAGGED
DESIGN CERTIFIED BY A.G.A. UNDER
ANSI Z21.24 AND Z21.45

Stainless steel connectors are the strongest, most corrosion-resistant appliance connectors available. May be used with natural, manufactured, mixed, liquefied petroleum gases, and LP-Gas air mixtures. Tubing: Uncoated, Type 304 stainless steel, a standard austenitic stainless steel with a high chromium content. ASTM #A240. This connector's safe, solid, one-piece construction has no soldered joints. Nuts & End Fittings: Plated 12L14 and 1214SA steel. Stainless steel connectors are provided with steel flare nuts and fittings for durability and safety. Super-safe stainless steel gas connectors offer superior resistance to corrosion caused by air pollution (gases, chemicals, and cleaning solutions), petroleum products, ammonia, fatty oils & grease, ozone and most household chemicals.
